PRTAA Health & Genetics Seminar
Friday, October 7, 2011 – 5:00 p.m. sharp
Hilton Garden Inn, Ft. Washington, PA

The PRTAA Breeder's Education Committee is excited to offer a presentation by Dr. Jerold Bell, renowned Veterinary Geneticist, on Friday evening, October 7, 2011 at the Hilton Garden Inn, Fort Washington, Pennsylvania. Dr. Bell's two-hour presentation will discuss an analysis of Parson Russell Terrier pedigree databases, registration statistics, genetic diversity in the breed, and popular sire syndrome. Also to be explored are genetic disorders affecting the Parson, with updates from conversations with pertinent researchers. Included will be breeding recommendations to manage different types of genetic disorders. A question and answer period will follow the presentation. This is a must for all serious Parson breeders and fanciers. We hope to see everyone there!

Our "*Taste of Philly*" buffet is offered with the seminar at a cost of \$40/person. Cost of seminar only is \$15/person.

Reservation Required

(Seminar & Buffet \$40)
